## The CD-i 210 Package

As you can see, Philips intend to knock you out with what's on offer without hitting you in the pocket. First in the ring, the CD-i player itself. See how it accepts all challenges, from films, games, music videos, photo CD and audio CD. It even has information, reference and educational titles under its belt. Not that you should be intimidated by this formidable piece of hardware. CD-i works with all standard TV receivers and all stereo systems. (Yes, even a boxer could operate it). Simply plug in the Philips Digital Video Cartridge and you've instantly upgraded the player to play the latest games, music videos and movies. Finally, a

piece of hard software. Caesar's World of Boxing. A fine example ladies and gentlemen of the best graphics, sound and action money can buy. The attention to detail is incredible. A live-action coach even reprimands you if he's not happy with your training! What is the world coming to?

Philips CD-i, obviously. 

**Buy the Philips CD-i 210,  
digital video cartridge and  
Caesar's World of Boxing  
and get a knockdown.**

**The CD-i 210 Package** It was Philips Whodunnit. The evidence is on the table, the coffee table. You may think the price suspicious when you discover the CD-i player itself can access films, games, music videos, photo CD and audio CD. It even has information, reference and education titles for the sleuths among us. The CD-i partners with any standard TV receiver, and all stereo systems, so you don't have to be Sherlock Holmes to operate it. Simply plug in the Philips Digital Video Cartridge and you've instantly upgraded the machine to play the latest games, music videos and movies. Finally, Philips take you out to a house of weird goings-on, backstabbing and mysterious

cabinets. (It's nowhere near Westminster!) 'The 7th Guest' mystery game. Pit your wits against some of the most advanced games, puzzles and graphics of all time, as you search around 'Mad Professor Stauf's' isolated mansion, looking for clues that will unravel the disappearance of his dinner guests. (And it wasn't the food.) All for under £500.\*\* It must be the most unexpected ending ever. **CD-i**

A TANTALISING COMPLEX NEW PUZZLE BASED ON THE BOOK BY MIKE WILKS, CREATOR OF THE ULTIMATE ALPHABET, THE LEGENDARY NO. 1 BESTSELLER THAT SOLD OVER A QUARTER OF A MILLION COPIES

The Ultimate Noah's Ark CD-i is a wickedly testing game based on Mike Wilks' latest intriguing puzzle book. The images on the disc, which together make up a remarkable painting, contain 707 creatures, of which 353 are painted twice, once for each sex, but a single creature is painted alone and without a mate. The deceptively simple mystery is to find the missing animal and identify its gender. Only by eliminating all the pairs one by one will the missing animal be found. While some pairs of animals are easy to spot, others have been concealed in all manner of guises. It's up to you to apply all your skills to seek out the missing animal - and claim your prize.
